

ACCESSIBILITY POLICY

Our website has been designed to achieve HTML standards compliance. If you have any issues accessing content on the Benevolent Fund website please contact: info@icebenfund.com

Font Size

All text on the site is re-sizeable using your web browser's built in tools. This can usually be achieved by clicking 'View' on your browser's toolbar, then choosing an option from the 'zoom' or 'text size' menu.

Browser Policy

The Benevolent Fund makes every effort to ensure that its website is compatible with the latest browser technologies. The site has been tested with the following browsers: Safari 9+, Firefox (latest version and one previous), Chrome (latest version and one previous), IE/11/10. Due to the ever-increasing number of browser versions and alternative viewing mediums available, combined with the limited development resources available, ICE Benevolent Fund accepts that it is not possible to ensure that all users of its site receive the same experience.

Mobile/Tablet

The Benevolent Fund website is designed to be mobile responsive, although the Benevolent Fund accepts the user experience will differ when accessed on mobile or tablet devices.
